*SPRAWLING CITIES AND TRANSPORT:  
FROM EVALUATION TO RECOMMENDATIONS*

INVITATION TO  
**SCATTER WORKSHOP**  
MILAN  
OCTOBER 24<sup>th</sup>, 2003

Dear Madam/Sir,

The SCATTER project organises a workshop in Milan on October 24<sup>th</sup> 2003 in order to discuss issues related to urban sprawl, preliminary results of the SCATTER project and the future steps to be taken. Attendance at the workshop is by invitation, free and includes lunch and refreshment services. The Programme (draft) is attached.

The objectives of the SCATTER project are to analyse the mechanisms and effects of urban sprawl, to quantitatively assess policies aiming to control the phenomenon and to provide recommendations to local/regional authorities.

The input of the representatives of the local and regional authorities in charge of land use and transport tasks, as well as the Commission representatives, is highly valued. The working language will be English.

If you were interested in attending the workshop, we would kindly ask you to confirm your attendance by September 19<sup>th</sup> by returning the attached registration form. The number of participants is limited to 50 persons. If you have any practical questions regarding your attendance, please contact Prof. Guenter Haag, [haag@stasa.de](mailto:haag@stasa.de). More information about the SCATTER project can be found at [www.casa.ucl.ac.uk/scatter](http://www.casa.ucl.ac.uk/scatter).

We thank you for your collaboration and look forward in seeing you at the workshop.

Yours sincerely,

Sylvie Gayda  
SCATTER Co-ordinator
